(please mark where appropriate)

in Germany, I have applied for a bank account at the DKB (German Bank) via Internet.

For a successful bank account opening, a proper identification of myself is necessary. Therefore, I ask you to help me and to check the following information on the DKB-form „Identification“:

- Family name, First name
- Date of birth, Place of birth, Nationality
- Information on the identity card or passport and residential address

Subsequently, I will sign the form personally in your presence and ask you to confirm the accuracy of the information with signature and bank stamp.

I know that this is not a common procedure, but with this, you would help me a lot.

Thank you and best regards
